CAROL A. HERRMANN, M.P.H.
Commissioner

April 15, 2004

Read this notice to find out about important changes to your Medicaid benefits!

Starting May 1, 2004, Medicaid is changing the number of doctor visits that it will pay for.

Starting May 1, 2004, Medicaid will only pay for 12 doctor visits in the office each calendar year.

This does not mean you are losing your Medicaid. This means that if you need more than 12 doctor visits, Medicaid will no longer be able to pay for these visits and you will be responsible for paying the bill.

Note: Extra doctor visits are available to children who have had a recent well-child checkup.

While you can go to any doctor who will take your Medicaid, when you stay with one regular doctor and drugstore you will get the most from your health care.

Questions about these changes should be mailed to:
